

Season's Greetings

1971

Lago Oil & Transport Co., Ltd.

Aruba, Netherlands Antilles

A Message from the President

On behalf of the Lago management, I wish to extend Season's Greetings to all our employees and annuitants, their families and friends.

We may look back to a year of great accomplishments in various fields. One of our most important achievements was the successful completion and startup of the Hydrodesulfurization complex. The HDS startup has been rated as outstanding when compared to other startups in Jersey — this rating is a real tribute to the fine job that was done by all of those involved.

We continued with our outstanding safety record, again maintaining one of the lowest accident rates in Jersey. This accomplishment has been recognized by the American Petroleum Institute. This institute has awarded three Accident Prevention Awards to our company, the most recent one for working more than 2.1 million injury-free manhours from October 1970 to July 1971. Our Maintenance & Construction Division personnel also reached a milestone by breaking the world-wide Jersey safety record of 2.2 million manhours with no disabling injury.

We also made progress in modernizing our facilities. Four new visbreaker turnaces were completed; facilities were added to improve fractionation at Nos. 9 and 10 pipestills; and the old acid treating plant was replaced with new hydrofiners.

To provide motorists with another facility, Esso Marketing provided dispensing and tankage equipment for the new Savaneta Esso Servicenter which was opened in November. Esso Marketing also contributed to motoring safety throughout the year through a monthly safety slogan contest.

As in every industry, Lago had to cope with a few problems as well. A labor conflict that developed in March was resolved peacefully. After hurricane "Edith" caused a complete power failure in the refinery in September, our Process employees brought down all the units without a mishap and put them back on stream after the Mechanical and Technical men did their share of the work.

Also the petroleum industry was generally in an over-supply situation during 1971, and Lago was no exception as we operated at about 80% of capacity.

During 1971 there were many changes in the product requirements of the market which we serve, and we can expect more changes in the future. However, with our excellent business climate and with the cooperation and continuing fine contribution of our employees, we can face the current and future changes with confidence.

We wish each of you and your family a joyous Christmas and a healthy and prosperous 1972.

Roy L. Trusty

R. L. TRUSTY

Un Mensahe di President

Na nomber di gerencia ehecutivo di Lago, mi ta extende Saludo di Temporada Festivo na tur nos empleadonan y pensionistanan, nan familia y amigonan.

Nos por tira bista ariba un anja tras di nos cu cosnan grandi cu nos a logra ariba varios tereno. Un di e realizacionnan mas grandi cu nos a logra ta e exitoso completamento y startmento di e plantanan di desulfurisation. E trabao di start plantanan HDS a ser considerá algo sobresaliente, compará cu otro casonan di start planta nobo den Jersey, y e ta un tributo real pa un trabao bon haci door di tur cu a coopera den su realizacion.

Nos a continua cu nos record di seguridad na trabao cu ta sobresaliente, y nos a logra un di e frecuecianan mas abao di desgracia den organisacion di Jersey. E logro ey a keda reconocí door di Instituto Americano di Petroleo. E instituto ey ■ otorga tres premio di Prevencion di Desgracia na nos compania, di cual esun di mas reciente ta pa traha mas cu 2.1 miljon di ora di trabao sin desgracia, for di October 1970 te Juli 1971. Personal di nos Division di Mantencion y Construcccion tambe a alcanza un punto memorabel, door di a kibra Jersey su record di 2.2 miljon di ora di trabao sin desgracia incapacitante. Nos ■ nota progreso tambe den modernizacion di nos facilidatnan di refinacion. Cuater fogon nobo pa visbreakernan ■ bini cla; facilidatnan pa mihor fraccionacion a ser agregá na pipestillnan 9 y 10. mientras cu e planta bieuw di tratamiento cu acido a keda reemplazá door di hydrofinernan nobo. Pa duna trafico motorizá un facilidad mas, Esso Marketing a pone tanki y facilidatnan di pomp na e Esso Servicenter na Savaneta, cu a habri na November. Esso Marketing a contribui tambe na seguridad den trafico motorizá, door di un concurso mensual pa seguridad den trafico.

Manera ta pasa den industria, Lago mester ■ enfrenta algun problema tambe. Un conflicto laboral cu a presenta na luna di Maart ■ keda solucioná pacificamente. Despues cu e horcan "Edith" a causa fayo completo di electricidad den refinaria na September, nos empleadonan di Process a baha tur plantanan sin ningun mal acontecimiento, y nan a bolbe pone nan na funcion despues cu trahadornan di Mechanical y Technical a presta nan parti di trabao necesario.

Industria petrolera tambe tabata generalmente den un situacion caminda tabatin demasiado producto den tankinan durante 1971, y asina Lago no tabata un excepcion ora nos a haya nos obliga di opera na razon di 80% di capacidad.

Durante 1971 tabatin hopi cambio den exigencianan di producto ariba e mercado cu nos ta sirbi, y nos por spera mas cambio den futuro. Sinembargo cu nos clima comercial cu ta excelente, y cu cooperacion y bon contribucion continuo di nos empleadonan, nos por enfrenta cambionan actual y futuro cu confianza.

Nos ta desea cada uno di boso y boso familia un Pascu alegre y un 1972 yen di salud y prosperidad.

Roy L. Trusty

E. Donato, M. Ruiz Ta Progresá Pa Puesto Nobo Efectivo Dec. 1

Eleuterio ("Techi") Donato y Modesto I. ("Dede") Ruiz a haya promoción efectivo 1 December. Techi ■ bira un Systems Associate den MCS-Systems ■ Data Processing Section, mientras Dede Ruiz di Comptroller's cu su promoción a bira Accountant den Sección Financiero.

YMCA President F. Loonstra (left) accepts Lago's donation from Vice President L. Johnston, in the presence of (l to r) S. Tjaarda (YMCA program secretary), J. Guastavino (secretary), B. S. Whitney (treasurer), Lago's PR/IR Manager B. E. Nixon, and Robert P. Steele (YMCA board member).

Lago Donation Helps YMCA Keep Up With Growing Needs of Aruban Youth

A Lago donation to the YMCA was presented recently by the company's vice-president, Mr. L. Johnston, at the Y's headquarters in San Nicolas. Accepting on behalf of the youth organization was its president, Mr. F. Loonstra.

Praising the work of the YMCA in Aruba, Mr. Johnston said: "What the YMCA has accomplished for the island's youth truly deserves the recognition from all sectors of the community. It pleases us indeed to be able to assist the YMCA in its good work and to keep up with the growing needs of the Aruban youth."

Besides Lago, the YMCA received donations from 785 donors during their 1971 Fund Drive. The proceeds will help cover the organization's operating expenses related to its character building and leadership training programs.

Another Lago representative present at the brief ceremony was Public & Industrial Relations Manager B. E. Nixon.

Messrs. J. Guastavino and B. S. Whitney, Secretary-General and Treasurer, respectively of the YMCA, and Mr. R. P. Steele, board member also witnessed the ceremony. Also present was the new program secretary of the YMCA, Mr. S. Tjaarda.

In recognition of the Y's contribution to the community, Lago, early this year, transferred the building in which the YMCA is housed to the youth organization. Recently, the YMCA board installed a plaque in the building which reads: "Dedicated To The Youth Of Aruba On The Occasion Of The YMCA's Fifteenth Anniversary In Aruba on April 27, 1971. Lago Oil & Transport Company, Ltd."

Aruba's YMCA operates two branches, one in San Nicolas and one in Oranjestad. Activities offered at these centers are designed to teach the youth and adolescents how to make more constructive use of their leisure time by means of sports, hobbies, artistic and cultural developments.

Bill Hodgson Turns in Best Slogan In November Traffic Safety Contest

Lago Annuitant Bill Hodgson, who had been foreman in Storehouse and retired in 1961, was the winner of the November Esso Traffic Safety Contest. His winning slogan was: "We promise to drive safely, please help by walking carefully."

Father of John Hodgson of Mechanical-Manpower ■ Services, Mr. Hodgson had the best slogan among some 400 entries. The tenth winner in this year's Esso Traffic Safety Slogan Contest, he submitted his slogan at the Essoville Servicenter of Joe

Oduber.

Mr. Hodgson received his prize, an Osterizer, during an Esso Marketing TV program on Tele-Aruba on November 26 from Frans M. Croes, Esso Dealer of the Santa Cruz Esso Servicenter.

The eleven Esso slogan contest winners for this year (including the December winner) still have a chance of winning the "best slogan of the year" prize. The best traffic safety slogan for 1971 will be announced before the end of the year.

E. Donato, M. Ruiz Progress To New Posts Effective Dec. 1

Eleuterio ("Techi") Donato and Modesto I. ("Dede") Ruiz were promoted effective December 1. Techi Donato became a Systems Associate in the MCS-Systems & Data Processing Section, while Dede Ruiz of Comptroller's advanced to Accountant in the Financial Section.

A 1941 MULO-A graduate of the St. Dominicus College in Oranjestad, Techi joined Lago thirty years ago as a Clerical Apprentice B in the Industrial Relations Department. On a rotational assignment the first year, he worked in almost all the company departments. In 1943 he joined the local army where he reached the rank of sergeant major. Returning to the Accounting Department (now Comptroller's) in 1947, he worked his way up from General Typist to Tabulating Machine Operator in the Data Processing Section.

In 1955 he advanced to Group Head-General Accounting. A promotion in 1958 made him supervisor-Payroll & Thrift & General Accounting. In 1962 he joined the Systems Group as a

Systems & Programmer Analyst, and in 1966 moved up to Senior Systems Analyst. His December 1 advancement is in recognition of his contributions in the field of Systems Design & Development.

Techi has followed Practical and Accounting courses, various management courses, and mostly courses related to systems and computer technology. These courses have taken him abroad on many occasions.

Off the job, Techi enjoys gardening and carpentry. A football and baseball fan, he also likes to listen to good music. On his forthcoming vacation he plans to visit Colombia. He and his wife, Gregoria, have eight children, aged 6 to 19. The family lives at Paradera.

With his December 1 promotion, Dede has joined management ranks. He is currently head of the Cost & Marketing Accounting Group in the Financial Accounting Section.

A 1953 MULO-A graduate from the St. Dominicus College in Oranjestad, Dede worked one year with the Government be-

Donato, Ruiz Promoví

 tera na varios ocasion.

Den su tempo liber Techi ta gusta traha den su hardin y trabao di carpinter. E ta gusta scucha bon musica y ■ ta un fanático di futbol y beisbol. Durante su proximo vacacion el ta pensa di bai Colombia. E y su esposa Gregoria tin ocho yiu, di 6 te 19 anja di edad. E familia ta bibá na Paradera.

Cu su promocion di 1 December, Dede ■ drenta fila di gerencia. Actualmente e ta Hefe di Grupo di Cost & Marketing, den Seccion Financiero di Comptroller's.

Cu diploma di MULO-A di St. Dominicus College di Playa cu el ■ recibí na 1953, Dede ■ traha un anja na gobierno promer cu el a bini na Lago. Su promer encargo di trabao tabata Junior Clerical Trainee den Accounting Department, caminda el ■ progresa y bira Oil Records Clerk B den Division di Shipping & Process na 1957. Na

fore joining Lago. His first assignment here was ■ Junior Clerical Trainee in the Accounting Department where he progressed to Oil Records Clerk ■ in the Shipping & Process Division in 1957. In 1962 he became Process Accounting Clerk II in the Financial Section. Subse-

(Continued on page 5)

1962 el a bira Process Accounting Clerk II den Seccion Financiero. Despues el a traha como Accounting Clerk te na su promocion como Senior Accounting Clerk na 1967. Desde 1970 Dede ■ traha den puesto di Accountant na varios ocasion.

Den su diezseis anja di su carrera cu Lago, el ■ sigi un programa extenso di mehora su mes. Den su mes tempo el ■ tuma varios curso di type y di contaduria basico y avanzá. El ■ tuma cursonan cu Lago ■ patrocina cu ICS di contaduria, casi tur e seminarionan cu Lago a patrocina, y cursonan di scirbi cu eficacia.

Un fanático di futbol, Dede ta hopi activo tambe den actividadnan di comunidad. E ta miembro di Parochieraad di Santa Anna di Noord, presidente di Comision di Carnaval Hubenil, y na 1971 ■ tabata secretario di Jaycees Antilliano. Recientemente el a keda eligi presidente di Jaycees di Aruba, cual puesto e lo tuma na Januari 1972. Durante su proximo vacacion ■ lo bishita conferencianan di Jaycees na islanan Bahama y tambe e ta pensa di bai Colombia.

E ta casá, y e cu su esposa Colombiana Rocío tin dos yiu, Derwin (4) y Sylvette (2). E ta bibá na Moko, Noord.

Donacion di Lago Ta Yuda YMCA Mantene Programanan pa Hubentud

Un donacion di Lago na YMCA a worde entregá algun dia pasá door di Vice-Presidente di Compania, Sr. L. Johnston, den edificio di YMCA na San Nicolas. E donacion a worde recibí door di Sr. Folkert Loonstra na number di YMCA.

Sr. Johnston, elogiando ■ bon trabao cu YMCA ta haciendo, a bisa: "Loke YMCA a presta na beneficio di hubentud di Aruba ta merece reconocimiento door di tur grupo di nos isla. Ta un gran placer pa compania di por yuda YMCA haci nan trabao excelente y pa tene paso cu ■ necesidadnan creciente di hubentud Arubano."

Fuera di Lago, YMCA a recibí donacion di 785 persona of grupo durante su campaña pa recauda fondos na 1971. Tal entrada ta yuda ■ sociedad paga su gastonan di ■ edificio y pa duna direccion den ■ programanan di entretenimento.

Un otro representante di Lago presente na e ceremonia cortico aki tabata Public ■ Industrial Relations Manager B. E. Nixon.

Na number di YMCA tabata presente na ■ evento aki Sres. J. Guastavino y B. S. Whitney, respectivamente Secretario-General y Tesorero, y tambe Sr. R. P. Steele, miembro di directiva. Tambe tabata presente ■ secretario nobo encargá cu planea programanan, Sr. S. Tjaarda.

Como un acto di reconocimiento di e meritonan di YMCA y su contribucion na nos comunidad, Lago na principio di e anja aki a pasa na e sociedad aki titulo di e edificio den cual nan ta. Poco dia pasá YMCA ■ pone den e edificio un plaqueta cu ■ inscripcion aki: "Dedicá ■ Hubentud di Aruba na ocasion di 15 anja di existencia di YMCA na Aruba, 27 April 1971. Lago Oil ■ Transport Co., Ltd."

YMCA di Aruba tin dos grupo, un ■ Playa y un na San Nicolas. Actividadnan di YMCA ta intencioná pa inculca den muchanan y hobennan e maneranan cu nan por usa nan tempo liber mas constructivo pa medio di deporte, hobynan, desaroyo di sentido pa arte y cultura.

Community Development Program Initiated for Seroe Colorado Area

A Seroe Colorado Community Development Program planned for the next several years has been announced by Lago Management.

The Seroe Colorado community has been maintained for the purpose of providing residences for expatriate management members in accordance with the provisions of the land concession. Steps are being taken to permit Seroe Colorado to develop in the pattern of ■ normal community, with new housing construction, home ownership, and fuller utilization of recreational and service facilities, with the objective of realizing a more modern and attractive residential area. This includes high standards of appearance, good quality homes, desirable recreational facilities, and other attributes of ■ forward looking community. In line with this objective, steps planned now and in the near future are as follows:

1. Promote home ownership by:
 - a. Offering selected lots for construction of new homes by Florin-Management Professional Technical employees.
 - b. Making available for sale selected 1500-series concrete block type houses to these employees.
2. Establish quality and appearance standards for all community residential housing and off-site facilities consistent with the expectations of professional and management level personnel, applicable to new homes as well as existing housing.
3. Provide an incentive to invest in home ownership by renting to Florin-MPT employees for a two-year period stucco type bungalows, with a provision for applying ■ portion of the rent to the purchase or construction of a home in Seroe Colorado. In connection with future

YMCA President Folkert Loonstra (at left) is here with Lago's Vice President LeRoy Johnston at the YMCA building where a Lago donation was given to the youth organization.

community planning, studies are being undertaken with the assistance of professional consultants in various fields, as required to assure harmonious and compatible residences and land improvements.

As the program outlined above is developed, informative announcements will be made to all management members, along with details of administrative changes and other data pertinent to each stage of the implementation. Modifications will be made based on experience gained to assure that progress is consistent and successful in reaching the objective of a broadly based and attractive community in which to live.

Florin-MPT employees have received a form on which they can indicate their interest in renting, purchasing or building a home in Seroe Colorado.

quently, he worked as an Accounting Clerk until his promotion to Senior Accounting Clerk in 1967. Since 1970 Dede has acted in the position of Accountant on various occasions.

In his sixteen-year Lago career, he has followed an extensive self-improvement program. On his own time, he has studied courses in typing and Basic and Advanced Bookkeeping. He has followed Lago-sponsored ICS courses in Accounting, almost all company-sponsored seminars, and Effective Writing courses.

A football fan, Dede is also active in community activities. He is a member of the St. Ann's Parish Council at Noord, president of the Youth Carnival Committee, and has been secretary of the Netherlands Antilles Jaycees during 1971. Recently elected President of the Aruba Jaycees, he will assume this post in January 1972. On his next vacation he will attend JCI conferences in the Bahamas and also plans to visit Colombia.

Married, he and his Colombian wife, Rocío, have two children, Derwin (4), and Sylvette (2). They live at Moko, Noord.

25 - Year Service Men Honored; Management Members Entertained

At a management dinner on December 21 at the Aruba Golf Club Vice President LeRoy Johnston, in left picture, presents 25-year service watch to Estandisao Koolman of Mechanical - Equipment Operators, and, in picture at right, to Laureano Maduro, of Process-Utilities Division-Acid & Edeleanu. Na un comemento pa miembros di gerencia Dec. 21 na Aruba Golf Club. HAPPY HOLIDAYS mean:

Safety consciousness,
sound actions, and a
clear mind:

- at home;
- on the job, and
- at celebrations;
- behind the wheel!

Tene Precaucion, Sigui Sugerencias y Goza Dianan di Fiesta Seguro

Tur anja nos ta tende y leza tocante avisonan pa tene cuidao cu candela den dianan di Pascu. Apenas nos ta paga tino na nan — realmente nos pensamiento ta riba cosnan mas agradabel. Pero ta util pa recorda nos mes tocante algun punto cu lo yuda nos cu seguridad den dianan di Pascu.

Seguridad di Pascu Ta Cuminza ■■ Kerstboom

Pinonan ta kima masha liher ora nan cuminza seca. Den algun seconde un chispa por cambia bo kerstboom den un masa explosivo di vlamnan. E awa cu Bo ta duna Bo kerstboom no solamente ta tené fresco — e ta contribui na Bo seguridad. Percura pa bo kerstboom ta hopi muhá.

Conseho nacional di Seguridad ta duna e siguiente sugerencianan:

- (1) No pone bela cendí den kerstboom — tampoco pone bo kerstboom banda di aparatonan cu ta produci calor, manera un television.
- (2) No pone kerstboom banda di cosnan manera cortina cu por yuda un candela plama.
- (3) No pone kerstboom na un lugar cu ■ ta stroba hende di pasa den un cuarto of un edificio.
- (4) No laga luz di bo kerstboom cendí ora bo bai drumo of sali for di cas.
- (5) No laga papel di lora regalo banda di ■ kerstboom, despues cu bo ■ habri ■ regalonan.
- (6) Den caso di candela, laga un hende yama brandweer

mes ora, na Lago ta 2222, brandweer di gobierno ta 00, y trata di paga e candela mes ora.

Adornonan cu no por kima ■■ mihor

Ta consehabel pa usa adornonan cu no por kima. Ta facil pa cumpra of traha adornonan di material cu no por kima, manera metal, glass of catuna di metal.

Si bo kier usa adorno di panja rond di pia di e kerstboom, anto ta mihor pa usa material cu ■ worde tratá cu un substancia cu ta wanta ■ candela. Bo por cumpra panja cu ya ta tratá caba of bo por trata e panja bo mes. Un mezcla cu ta wanta candela ta: 9 ons di borax y 4 ons di acido bórico den 1 galon di awa. Doop e panja den ■ mezcla, of pasé riba djé cu kwashi of spuit e. Percura pa superficie di e panja ta bon tapá. Pero no lubida, "wanta candela" no ta nifica cu "e no por kima".

Consehonan Tocante Luz den Cas

Ora di planea luz pa kerstboom, evita di pone un carga demasiado riba circuitonan di coriente. Set di luz no ta gasta hopi coriente, pero sí nan por carga un circuito di mas.

No usa wayanan cu ta franjá. Ora Bo cumpra un set nobo di luz of cualkier otro equipo di coriente, mira si ■ tin riba djé ■ seyo di Underwriters' Laboratories.

Promer cu Bo pega set di luz na e kerstboom, pone na tur su largu den suela y controlé pa mira si tin waja los den algun socket. Schroef tur bombiya firmemente den nan socket, hinca ■ set den un stopcontact y mira si tur luz ta cende.

Lampi riba suela ta keinta masha hopi. Hala nan leu for di panja y pone nan na un lugar caminda ni mucha ni bestia di cas no por toca nan. Controla circuito di coriente si acaso ■ ta cargá di mas.

Usa bombiyanan corecto y Waya corecto pa Luznan di Afor

Pa luznan cu ta worde usá
(Continuá na pagina 10)

Programa pa Desaroyo di Comunidad A Ser Inaugura pa Seroe Colorado

Lago a caba di anuncia un programa nobo pa desaroyo di Comunidad den Seroe Colorado, cual programa lo dura pa e proximo varios anja.

Comunidad di Seroe Colorado a worde manteni pa proposito di percura pa cas caminda miembronan di gerencia estranhero por ■ biba, di acuerdo cu e condicionnan di concesion di tereno. Pasonan actualmente ta worde tumá pa laga Seroe Colorado desaroya den un modelo di un comunidad normal, cu construccion di cas nobo, cu hende por tin nan mes cas, y uso mas amplio di facilidnan pa recreo y servicio, cu obhetivo di realiza asina un distrito residencial mas moderno y atractivo. Esaki ta inclui exigencianan halto di apariencia, bon calidad di casnan, facilidnan deseabel pa recreo, y otro atributonnan di un comunidad progresivo. Di acuerdo cu e obhetivo aki, pasonan ta worde planeá actualmente y den futuro cercano, cual ta:

1. Promocion di propiedad di cas door di:
 - (a) Ofrece terenonan selectá pa traha cas nobo door di empleadonan di gerencia, paga na florin, cu ta profesional y tecnico;
 - (b) Pone disponibel pa bende na tal empleadonan casnan selectá den e grupo di casnan number 1500 trahá di blokki di concret;
2. Determina exigencianan di calidad y apariencia pa tur cas cu ta parti di e comunidad pafor di refinaria, di

acuerdo cu loke por worde sperá di empleadonan riba un nivel di gerencia y profesional, cual lo aplica na casnan nobo tanto como na casnan ya trahá caba.

3. Percura pa un incentivo di inverti nan placa den propiedad di cas door di huur na empleadonan di gerencia pagá na florin, cu ta profesional y tecnico, durante dos anja di e bungalownan trahá di stucco, cu e provision cu parti di e huur lo worde creditá na ■ prijs di compra of na construccion di un cas den Seroe Colorado

Relacioná cu planeamento pa futuro, actualmente estudianan ta progresando cu ayudo di conseheronan profesional den varios tereno, cual lo asegurá casnan armonioso y adecuado, y mehoramento di terenonan.

Segun e programa splicá aki riba ta bai desaroyando, anuncian informativo lo worde haci pa tur miembronan di gerencia, y tambe detayenan di cambianan administrativo y otro puntonan relacioná cu cada fase di su aplicacion. Cambionan lo worde haci basá ariba experiencia cu compania ta haya, pa sigura cu progreso lo ta consecuente y exitoso, door di alcanza un obhetivo di un comunidad atractivo pa biba aden, basá ariba un base amplio.

Our Cover and Back Page

The manger scene on Page 1 is the one that adorned the church of Paradera during the Christmas season last year. The picture was taken by Esso News Photographer J. M. de Cuba.

The back page is a painting by Associate Editor Miss Lydia de Lange, who also drew the cartoons on Page 11.

Nos Cubierta y Ultimo Pagina

E escena di pesebre ariba Pagina 1 ta esun cu a dorna e misa di Paradera durante temporada di Pascu anja pasa. E portret a ser saca pa Fotografo di Esso News J. M. de Cuba.

E ultimo pagina ta un pintura di Associate Editor Srta. Lydia de Lange, kende tambe a haci ■ pinturas ariba Pagina 11.

Take Precautions, Follow Some Hints, and Enjoy Safe Holidays at Home

Every year we read and hear warnings about Christmas fires. We hardly notice them — after all we're thinking of more pleasant things. But some reminders may help us enjoy a safe Christmas.

Christmas Safety Begins with the Tree

Evergreens are highly flammable when they begin to dry out. Within seconds, one spark can transform a Christmas tree into a roaring, explosive mass of flames. The water you give to your tree not only keeps it fresh — it adds to your safety. Keep the tree's moisture content high.

- Here are some suggestions of the National Safety Council,
- (1) Don't put lighted candles on the tree — don't place tree near heat-giving devices, like a TV set.
 - (2) Don't place tree near any furnishings which might help a fire spread.

- (3) Don't place tree where it might trap occupants of a room or building.
- (4) Don't leave lights burning on tree when you retire or go out.
- (5) Don't leave paper wrappings lying around after gifts have been opened.
- (6) In case of fire, let some one call the closest Fire Department immediately: Lago - 2222; Government Fire Department - 00, and try to combat the fire at once.

Fireproof Ornaments Are Better

Incombustible materials are recommended for decorations. Ornaments of fireproof materials such as metal, glass, and rock wool are easy to purchase or to make at home.

If you want fabric trimming around tree base, it's best to use a material which has been treated with a fire retardant.

You can buy fabric that's already treated or treat it yourself. One fire-retardant mixture is: 9 ounces of borax and 4 ounces of boric acid in 1 gallon of water. Dip, brush, or spray the fabric. Be sure to cover the surface thoroughly. But remember, "fire retardant" doesn't mean it's "fireproof."

Inside Lighting Tips

In planning tree lighting, avoid overloaded circuits. Strings of lights take little power, but they may overload a circuit.

Don't use frayed cords. When you buy new light strings or any other electrical equipment, make sure it has the Underwriter's Laboratories seal.

Before putting the lights on the tree, stretch each string on the floor and inspect it for loose wires at the sockets. Screw all bulbs firmly in sockets, plug the string into an outlet, make sure that all bulbs light.

Flood lamps get very hot. Keep them away from fabrics and place them where they cannot be reached by children and pets. Check circuit for overloading.

Use Correct Bulbs and Cord For Outdoor Lighting

For outdoor lighting, don't place lamps too near trees, shrubs, or wooden walls or fences. Use waterproof electric cords and sockets, and lamps which will not be cracked by wetting when they are hot. Don't use indoor strings of lights outside. Outdoor strings have rubber or synthetic rings around each lamp to keep water out of the sockets. The lamps do not break easily and usually burn independently. If you need an extension cord, use the outdoor (heavy rubber-covered) type. Tape all connections with electrician's rubber tape.

Dianan di Fiesta

pafor di cas, no pone e luznan tantu cerca mata, palu of particionnan di maderá. Usa waya y socket especial cu awa no por dreña nan, y bombiya cu no ta kraak ora awa cai riba

E Angel cu a Nenga di Canta

"Y di repente a presenta hunto cu un angel un grupo di ehército celestial, alabando Dios y cantando..."

Pero den anochi cu Cristu a nace, tabatin un angelito cu a nenga di canta. Ya caba desde tempo di practica pa e promer servicio di canticanan di Pascu, e angel di mas chiquito den coro celestial a bisa cu si no ta canta. E tabata un angelito cosmopolitano cu un nombre largo: Muforaj, O'Brien, Antonio, Chiong, McTavish, Stackpole, Goldberg, Smith.

Gabriel Ta Exigi un Splicacion

Director Gabriel di e coro kier a sabi ta pakiko Muforaj no kier canta.

"Maestro Gabriel, mi ta contra e sentimento di e cantica cu nos lo mester canta mayan anochi. Paz na tera, y bon voluntad pa hendenan como no! Bosonan santunan aparentemente no ta na altura di loke ta pasando. Mira e lugar ey cu jama mundo! Mira ta ki disparate ta tuma lugar eyan. Door di bringamento sangriento, Egipto y Spaña a keda anexá na Imperio Romano. Mira ey bao den bosonan Herusalem preciso. Promer cu siglo aki caba, Titus lo bini y lo destruya e ciudad for di otro y destrui su tempel. Y toch nos tin cu canta Paz na Tera?"

"Hoben Smith, bo ta canta di nos lo tin cu laga bo bai", asina Gabriel a bisa.

E coro a sigi practicando, sin cu ningun hende por tende e angelito cu su voz di mas dushi den esferanan. Muforaj su curazon yen di dolor tabata

nan ora nan ta hopi cajente. No usa luz cu destiná pa uso den cas, pafor di cas. Setnan pa uso pafor tin renchi di rubber of di material sintético rond di cada bombiya pa tena awa pafor di nan socket. E bombiya mes no ta kibra asina liher, y generalmente nan ta cende independiente di otro. Si bo mester di un waya di extension, anto usa un pa uso pafor (cubri cu rubber diki). Pone tape di coriente rond di tur coneccion usando tape di electricista.

camna riba caminda den hardin.

Y bin socede, mientras cu e ciudad chiquito di Bethlehem tabata drumi ketu y na sonjo, cu "angelnan for di reino di gloria" tabata "bula over di rebañonan".

"Y mira, angel di Dios a parce nan, y gloria di Dios tabata brilja rond di nan, y nan tabatin hopi miedo". Y Gabriel a bisa nan: "Boso no tene miedo, pasobra mi ta trece pa Boso bon noticia di gran alegría, cu lo ta pa tur pueblonan."

"Pasobra pa Boso awe den ciudad di David un Salvador... "Y di repente tabatin hunto cu e angel un grupo di ehército celestial, alabando Dios y cantando "Gloria Dios den Altísimo, y tera paz pa tur hende di bon voluntad".

Dios a tende e cantica y el a keda satisfecho. Pero den cielo tabatin un angelito cu a nenga di canta.

Y Ulas Ta Contesta

Y a socede cu Dios a keiru den hardin, y di repente Muforaj a sinti presencia di Dios. E no tabatin miedo, pero el a keda para cu respet, y cu su cabez bahá.

Dios awor a bisé: "Ta kiko bo ta haci akinan, Muforaj? E coro a canta mas bunita. Pero toch mi a sinti falta di un voz. Esun di bo, mi yiu. Pakiko bo ta akinan?"

"Mi tata, ami no por a canta. Ta com mi por canta Paz na tera cu no tin paz. Y si mi hacié toch, anto mi ta proclama un mentira".

"Y ta kende abo ta, Muforaj, pa duda di palabra eterno di Dios! Criatura cabesura — e cantica no ta bisa cu paz na tera. E cantica proclama cu pa via di Esun Cu a nace awe, algun dia lo tin paz na tera, y na su propio tempo bon voluntad lo reina cerca TUR hende. I ta ami, Señor, a bisa asina!"

"Pordona mi, mi no tabatin razon di duda di Bo ley", e angelito a contesta.

Ora cu Dios a camna bai, Muforaj a decidi di bai Bethlehem, y eyan adora Cristu Yiu.

The Angel Who Refused to Sing

"And suddenly there was with the angel a multitude of the heavenly host, praising God and singing...."

But on that solemn night when Christ was born there was a little angel who refused to sing. It was early as during the rehearsals for the earth's first Christmas carol service that the tiniest angel in the heavenly choir announced he would not sing. He was a cosmopolitan angel with a long name: Muforaj, O'Brien, Antonio, Chiang, McTavish, Stackpole, Goldberg, Smith.

Gabriel Demands an Explanation

Choir Director Gabriel wanted to know why Muforaj Smith wouldn't sing.

"Master Gabriel, I am objecting to the sentiment of the song we are supposed to sing tomorrow night, 'Peace on earth, good will toward men', indeed! You saints do not seem to keep up with things. Look down there at that place called earth! Look what a mess it's in! Through bloody fighting Egypt and Spain have been annexed to the Roman Empire. Look down there at your precious Jerusalem. Before the century is over, Titus will come along, tear that city apart and destroy its temple. And we still have to sing: 'Peace on Earth?'"

"Either you sing, Master Smith — or we will excuse you!" Gabriel said.

The chorus continued rehearsing, without the tiniest angel with the sweetest voice ever heard through the spheres. Muforaj with a downcast heart shuffled along the path to the forest.

It came to pass, the little town of Bethlehem lay wrapt in deep and dreamless slumber, that "angels from realms of glory" were winging "their flight o'er their flocks."

"And lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them, and they were sore afraid."

And Gabriel said unto them, "Fear not; for, behold I bring you good tidings of great joy, which shall be to all people."

"For unto you is born this day in the city of David a Saviour...."

"And suddenly there was with the angel a multitude of the heavenly host praising God and singing, 'Glory to God in the Highest, and on earth peace, good will toward men'."

God heard the song and was well pleased. But in heaven there was one little angel who had refused to sing.

The Lord Answers

And it came to pass that God walked in the tumult garden and suddenly Muforaj felt the

star ride to earth.

Cabel boto cu strea pa mundo.

presence of God. He was not afraid, but stood respectfully, with his curly head bowed.

And the Lord said unto him: "What does't thou here, Muforaj? The chorus sang more beautifully than ever before. Yet I missed one voice. Thine, my child. Why art thou here?"

"My Father, I could not sing. How can I cry 'Peace on earth' when there is no peace? To do so, seemed to proclaim a lie."

"Who art thou, Muforaj, to question the everlasting word of God? Stubborn little one — the song does not say that peace is upon earth. The song pro-

Muforaj, the angel who refused to sing, now sings most beautifully for the Baby Saviour.

Muforaj, e angel a nenga di canta, awor ta masha bunita pa Niño Salvador.

Angels rehearsing for first Christmas Carol service. Angelnan repitiendo pa promer canticanan di Pascu.

E Angel cu a Nenga di Canta

(Continúa di pagina 10)

El a yama un strea cu tabata pasando y manera un raket el bai na tera riba e strea. E tres Sabionan na Oriente a mira e strea, y nan a cuminsa nan biahe te cu nan a yega, poco despues, na e lugar unda e Niño tabata.

Ora cu Muforaj a mira a Yiu den e pesebre el a bisa: "Lo mi canta pa Bo mi cantica di mas dushi, Niño Hesus. Scucha bon, ya cu esperanza y miedo di tur anjanan ta uní den Bo awe nochi. Mi ta trece pa Bo regalo di mi curazon cantando. No ta

importa com grandi bo desengañonan por ta, Bo curazon nunca lo no conoce tristeza. Pasobra lo Bo conoce hendenan manera nan ta di mas malu, pero toch lo Bo mira nan di e manera mihor cu nan ta".

Y asina Muforaj, e angel cu a nenga di canta, awor canta: "Gloria na Dios den Altísimo, y Gloria na Su Yiu na tera kende ta trece paz y bon voluntad. Alegria bini pa mundo! Señor a yega; laga mundu recibí su Rey. Laga cada curazon prepara lugar pé; cielo y tera canta pé".

claims that because of Him Who is born this day, one day peace shall be upon earth and that one day in fullness of time, good will shall reign among ALL men. I, the Lord, have spoken it!"

"Forgive me, I have been wrong to question Thy law", answered the tiny angel.

When God moved away, Muforaj decided to go to Bethle-

hem to worship the Christ Child. He hailed a cruising star and skyrocketed to earth. The three Wise Men in the distant East saw the star and began their journey till, later, they came to the place where the Child was.

When Muforaj saw the Infant in the manger, he said: "I will sing you my sweetest song, Baby Jesus. Hearken well. For the hopes and fears of all the years are met in thee tonight. I bring to you the gift of the singing heart. No matter how great your discouragements, your heart shall never know recoil. For you will know men at their worst, yet see in them their best."

And so Muforaj, the angel who had refused to sing, sang:

"Glory to God in the Highest, and Glory to His Son on earth who brings peace and good will. Joy to the World! the Lord is come; let earth receive her king. Let every heart prepare Him room; heaven and nature sing."

*May the warmth of this
Christmas Season
Bring to all: Good Health...
Continued Prosperity...
And a New Year
Full of Happiness!*

*Cu e calor di e
Temporada di Pascu
Trece pa tur:
Salud... Prosperidad Continuo...
Y un Anya Nobo
Yen di Felicidad!*
